

CrisisAlert™

“HOW CAN I ENSURE THE SAFETY OF MY STAFF WHILE PRESERVING THE PATIENT EXPERIENCE?”

HEALTHCARE SAFETY: DISCREET, PROMPT EMPLOYEE PROTECTION IS NEEDED NOW MORE THAN EVER

Healthcare providers specialize in caring for people when the unplanned occurs. In order for them to be effective, they must have a safe work environment. And while no one can always predict what will happen, everyone must be equipped to respond when an incident occurs. No matter where workplace incidents arise, your staff and healthcare providers need the means to act effectively, quickly and discreetly – without compromising safety or the quality of care you provide. Likewise, administrators must be equipped to direct help where it is needed – easily and immediately – because during a crisis, **every second matters.**

253,700

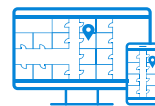

Number of employees in U.S. Hospitals who recorded work-related injuries and illnesses in 2011.¹

CENTEGIX™ CrisisAlert™: INCIDENT RESPONSE. ANYTIME. EVERYWHERE.

With healthcare providers in mind, we designed a solution that routes requests for help to key personnel instantly, with precise location information. Every staff member receives a smart CrisisAlert badge, which empowers them to quickly and discreetly activate an alert. The moment an alert is triggered, CrisisAlert immediately provides clear and critical information to all impacted personnel. Its features include:

Immediate notification. With the simple push of a button, alerts instantly reach administrators and 911 responders.

Location accuracy. Our innovative technology determines the location of the alert, down to an individual room.

Total grounds coverage. Our network secures every square foot of your property – there are no dead zones. Badges function everywhere.

Ease of installation. Solutions installed within budget in 45 days or less. No alterations to physical structures or electrical wiring are required.

Audio and visual notification. Facility-wide alerts communicate emergency information using colored strobe lights, desktop alerts and intercom integration.

One Button Activation. Wearable badge with a single button enables confident human action.

“OUR SOLUTION PROVIDES DISCREET SAFETY FOR EVERYONE IN YOUR HOSPITAL, SO YOUR HEALTHCARE PROVIDERS CAN CONTINUE TO DELIVER TOP-NOTCH PATIENT CARE WITH CONFIDENCE.”

- Matthew Stevens, CEO, Centegix

4X HEALTHCARE VIOLENCE

The rate of serious workplace violence incidents is more than four times greater in healthcare than in private industry.²

80%

of serious violent incidents reported in healthcare settings were caused by interactions with patients.³

HOW WE BRING SAFETY TO EVERY CORNER OF YOUR LOCATION

The CrisisAlert™ platform is an Internet-of-Things (IoT) incident management solution which uses a powerful blend of hardware, software, and wireless technologies to ensure immediate, accurate, and reliable emergency communication and grounds-wide protection.

ABOUT CENTEGIX

CENTEGIX™ innovates technology to save and enrich lives. Our CrisisAlert™ solution is an IoT incident alert platform that utilizes mobile and desktop applications along with a mesh network to provide facility-wide protection. We go well beyond the limitations of legacy communications devices and single-dimensional apps, because in a crisis: Every. Second. Matters.
