

CrisisAlert™

“HOW CAN I MAKE MY HOTEL BOTH
SAFE FOR MY EMPLOYEES AND
WELCOMING TO OUR GUESTS?”

HOSPITALITY SAFETY: DISCREET EMPLOYEE PROTECTION IS NEEDED NOW MORE THAN EVER.

All staff deserve to feel safe at work. No matter where an incident takes place, your housekeepers and other staff need the means to act effectively, quickly and discreetly — without compromising either safety or your guests' experience. Likewise, management must be equipped to direct help where it is needed – easily and immediately – because during an incident, **every second matters**.

89% of workers
in the hospitality industry
have experienced one or more
incidents of sexual harassment
in their working life.¹

CENTEGIX™ CrisisAlert™: INCIDENT RESPONSE. ANYTIME. EVERYWHERE.

With hotel employees in mind, we designed a solution that sends requests for help to key personnel instantly, with precise location information. Each housekeeping and staff member receives a smart CrisisAlert badge, which empowers them to quickly and discreetly activate an alert. The moment an alert is triggered, CrisisAlert immediately provides clear and critical information to all hotel administrators. Its features include:

Immediate notification. With the simple push of a button, alerts instantly reach administrators and 911 responders.

Location accuracy. Our innovative technology determines the location of the alert, down to an individual room.

Total grounds coverage. Our network secures every square foot of your property – there are no dead zones. Badges function everywhere.
