CENTEGIX™
EVERY. SECOND. MATTERS.

Safer Spaces

We are dedicated to our mission of creating safer spaces by innovating technology to empower and protect people.

CENTEGIX was founded on the idea that technology can create safer, more secure environments. Our CrisisAlert solution was designed by industry and technology experts based on feedback from staff about the challenges of using legacy options to call for help in an emergency.

Our wearable badge is the fastest and easiest way to call for help and since inception, **CrisisAlert has delivered over 100,000 alerts.**

Our innovative technology enables rapid incident response to any emergency—from the everyday to the extreme.

CENTEGIX™ increases safety for any workspace.

Leaders across industries trust CrisisAlert to provide peace of mind for staff and executives:

- Education
- Healthcare
- Hospitality
- Government
- Retail
- Commercial

- *2,000+ locations*
- *20+ states*
- *3 of Top 10 School Districts*
- *10 of Top 100 School Districts*
- *100,000+ Alerts Delivered*

CrisisAlert™ delivers an innovative approach to safety

ONE BUTTON ACTIVATION
Our wearable badge has a single button that enables quick action. It is discreet and easy to use.

IMMEDIATE NOTIFICATION
With the simple push of a button, alerts instantly reach administrators and responders.

TOTAL FACILITY COVERAGE
Our purpose-built network secures the entire property and operates independently of cellular and WiFi. CrisisAlert badges function everywhere, inside and outdoors.
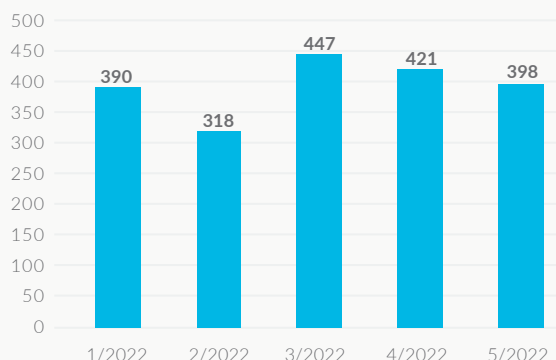

LOCATION ACCURACY
Our innovative technology provides room-level location information.

EASE OF INSTALLATION
CrisisAlert can be installed with no alterations to physical structures or electrical wiring.

AUDIO & VISUAL NOTIFICATION
Facility-wide alerts communicate emergency information to everyone immediately via colored strobe lights, desktop notifications, and audio messages.
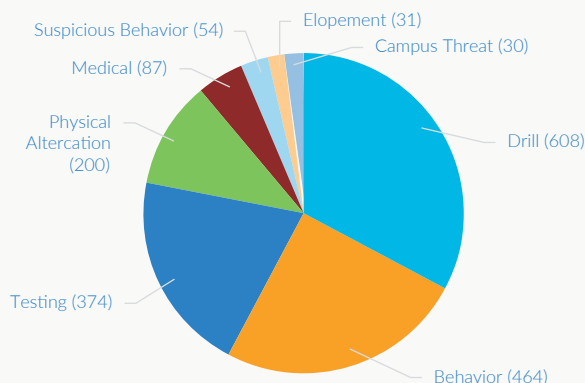

The Data-Driven Power of CrisisAlert

CENTEGIX customers have immediate and easy access to their alert data via the CrisisAlert Dashboard. This data equips leadership with actionable information to best support their staff.

Alerts by Month

Month	Alerts

- Campus Threat (30)
- Medical (87)
- Physical Altercation (200)
- Drill (608)
- Testing (374)
- Behavior (464)

How We Bring Safety To Every Corner of Campus

Our Powerful Platform

CrisisAlert is a Hardware as a Service (HaaS) solution. Our Internet-of-things (IoT) platform utilizes a powerful blend of hardware, software, and wireless technologies to ensure fast, accurate, and reliable communication of emergency incidents campus-wide. Instant communication through visual cues and audio integration enables rapid response to any incident or crisis, anywhere on a campus.

We designed an IoT network in conjunction with a Software as a Service cloud solution that can provide campus-wide coverage and room-level location. That is something that can't be done in the market today."

—Brent Cobb, CEO

What Schools Are Saying About CrisisAlert

"I love that we have the ability to let people know someone is in trouble immediately. We're not tethered to a phone that may or may not work in the building. I had a situation years ago where I couldn't get in touch with anyone ... danger. This device is so ... cise and ... s great."

—GA ... dle School Tea ...

"It e ... wers tea ... s to be in contro ... y of their room. They can summon a principal at the push of a button. We know where, and we know who. That is powerful technology."

—Trent North, Superintendent, Douglas County Public Schools, GA

"We call it a force multiplier—putting this technology in the hands of more than 25,000 employees gives me 25,000 sets of eyes to help keep campuses safe."

—Chief John Newman, Director of Safety and Security, Hillsborough County Public Schools, FL
