

CENTEGIX Visitor Management's OneRoster Integration

With the CENTEGIX Visitor Management ClassLink OneRoster API, you can save time and money by eliminating hours of manual data entry.

Keep Your Students and Contacts Up-to-Date

CENTEGIX's OneRoster Integration saves you time and money by connecting your OneRoster compliant SIS to your CENTEGIX Visitor Management system. Once connected, you can transfer your student and guardian lists for up-to-date activity recording.

Transfer Student Rosters

Easily transfer student rosters from your SIS into CENTEGIX Visitor Management system. Save hours of time and frustration uploading and updating student rosters throughout the year. As you update rosters in your SIS, the new changes are synced to your CENTEGIX dashboard.

Transfer Guardian Contacts

Improve student safety by transferring parental and guardian contacts from your SIS to CENTEGIX Visitor Management. Validate custody before a student is dismissed early to ensure they're leaving with the right contact. Our API keeps your contact lists up-to-date throughout the year.

Manage Connections with ClassLink

Does your district use ClassLink? Level up your OneRoster connection by adding your ClassLink account. You'll benefit from easier implementation, regardless of what SIS you use, and district-wide monitoring of data exchanged,
