

Safety is the #1 Influencer for Nurses Considering a Job Change¹

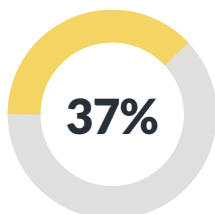

By enhancing safety with CrisisAlert™, you can impact retention, productivity, and patient care.

Workplace violence increases turnover rates. In 2023:

of nurses changed or left
their jobs due to WPV²

of nurses considered
leaving the profession²

Workplace violence is also tied to an increase in paid time off and workers compensation claims.

Strengthen Safety and Retention with the CrisisAlert™ Wearable Duress Solution

CrisisAlert empowers healthcare workers to feel safe by enabling them to plan for and respond faster to emergencies, anywhere on campus.

Enhanced staff safety translates to
higher patient safety and quality
of care³

Each % of reduced RN turnover
can **lower labor costs** by \$263K
annually⁴

Turnover costs average \$56K/RN.
Lack of retention can cost a hospital
up to **\$5.8M per year**⁴

98%

of users say CrisisAlert™
helps them feel safe and
supported.

CREATE A CULTURE OF SAFETY FOR YOUR EMPLOYEES.
