

CENTEGIX Impact Story

'Time is a Gift': Empowering Educators on the Playground

Medical Crisis

- Flomaton Elementary and Flomaton High school share a single SRO between campuses.
- The district needed an added layer of support for times when the SRO was unavailable.
- In Spring 2022, a student at Flomaton Elementary School began choking after a rock became lodged in his throat during recess.

Outcome

- A staff member, who was **on the school playground and unable to reach her radio**, activated her CENTEGIX CrisisAlert™ badge.
- Because they received **immediate notification and precise alert location information**, seven adults were by the student's side in under 60 seconds, and the obstruction was successfully cleared.
- Principal Courtney McBride credited the CrisisAlert™ system for the **rapid and coordinated response**, stating, "CENTEGIX earned its keep that day."

This to me is an extra thick layer of safety that is immediate. You've got somebody on the scene within a matter of seconds. You press that button more than three times and you're fixing to have police, everybody is coming, and the response time, I know, is going to be just as fast.
