

# CENTEGIX Impact Story

## How CENTEGIX Supports Special Education Safety

### The Challenge

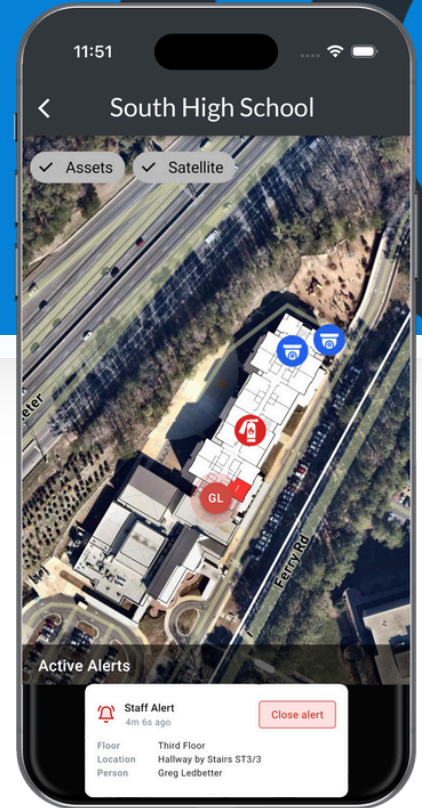

- In Special Education classes, when an incident occurred, a teacher needing help relied on sending a student to the office.
- Communication delays led to situations escalating.
- In situations like seizures, the delays caused conditions to get worse and other students to become distressed.
- Staff felt unsupported and unsafe.

### The Solution

- With the single-button activation of the CrisisAlert badge, the CENTEGIX Safety Platform immediately delivers precise alert location detail, **as well as nearby safety assets, enabling on-site support to mobilize rapidly** and address most situations before they escalated further.

### The Results

- Severe behavioral incidents have been reduced.
- Special education staff feel more supported and less isolated.
- Enhanced staff confidence and job satisfaction have led to improved student outcomes.

customer

*I love the simplicity of the CENTEGIX safety solution. I love the fact that it empowers everyone to be on duty. We have a saying on our team that we're all on duty when it comes to safety. This actually lives that message out.*
